

**Risk Reduction and Environmental Stewardship (RRES)—Remediation Services – Environmental Characterization and Remediation (ECR) Group,  
Qualified Suppliers List, Revision 25, August 20, 2004  
(Reference RRES-ECR QP-7.2, Supplier Evaluation for specific requirements controlling this QSL.)**

Supplier's Name	Item or Service Provided	Qualification Expires	Comments
Adelante Consulting, Inc.	Environmental Services, Economic Development, Organizational Development, Information Management	TBD by QPPL	
Advanced Geological Services	GPR and resistively geophysical surveys	10/05/05	
Alta Analytical Laboratory	PCB/Dioxins and Furans	01/07/07	Independent assessment conducted by QII on 1/6/04
Air Toxics Limited	Organic and Inorganic for Air	01/06/07	Independent assessment conducted by QII on 1/5/04
American Radiation Services of New Mexico	Radiation Screening	11/06/06	Independent assessment conducted by QII on 10/29/03.
American Radiation Services, Inc. of Baton Rouge, Louisiana	Radiation Screening	6/4/07	Independent assessment conducted on June 3-4/04
Analytical Quality Associates, Inc	Conduct qualification audits of analytical chemistry and geotechnical laboratories and related analytical chemistry consulting.	10/02/06	Qualification documented in RRES-RS Letter No. ER2003-0637, October 2, 2003.
Brown & Caldwell	Environmental Engineering	08/19/07	Desktop Assessment
CartoGraphy by Andrea Kron	Illustration and cartographic support for RRES-RS-ECR documents	05/18/07	Evaluation performed in accordance with QP-7.2 and QP-7.3 requirements.
Coastal Science Lab	Isotopic nitrogen analysis – 15, 14.	Laboratory not qualified	Do not use laboratory until an independent assessment is performed to verify the laboratory's qualification in accordance with QP-7.2 requirements.
Daniel B. Stevens	Hydrologic Analysis	4/14/07	Independent assessment conducted by QII on 4/14/04.
Desert Research Inst.	Total Organic Carbon analysis and Particle size	Laboratory not qualified	Do not use laboratory until an independent assessment is performed to verify the laboratory's qualification in accordance with QP-7.2 requirements.
Duratek Federal Services, Inc, Northwest Operations	Waste characterization and remediation	8/5/05	
Eberline Consulting Services Group	Waste Management Technical Support Services	8/19/07	Assessment performed by PS1 using 10 CFR 830.120, QA Requirements and 830.122, Nuclear Safety Management

**Risk Reduction and Environmental Stewardship (RRES)—Remediation Services – Environmental Characterization and Remediation (ECR) Group,  
Qualified Suppliers List, Revision 25, August 20, 2004  
(Reference RRES-ECR QP-7.2, Supplier Evaluation for specific requirements controlling this QSL.)**

Supplier's Name	Item or Service Provided	Qualification Expires	Comments
EES-6	Analyze aqueous leachate from bromide, chloride, fluoride, nitrate, nitrite, perchlorate and sulfate using ion chromatography. Perform gravimetric moisture analyses of drill core samples using ASTM Method D2216-90. HE analysis. Refer to approved MOUs.	10/27/06	Re-qualification assessment completed on 10/27/03. EES-6 requalified.
Enviro-Drill, Inc.	Hollow stem auger, rotary (air & mud), core drilling, well sampling, monitoring well installation, sampling and abandonment.	06/16/07	Evaluation performed in accordance with QP-7.2 and QP-7.3
FUGRO Airborne Services	Time-Domain Electromagnetic Survey (aerial)	8/23/04	Quality Assurance/Quality Control Plan reviewed and approved by the QPPL
General Engineering Laboratory	Organic and Inorganic and radiological analysis	TBD by QPPL	NELAC certified. General Engineering Laboratory has been conditionally approved. Independent assessment required to be performed in accordance with QP-7.2.
Geochron Lab	Deuterium and Isotopic Oxygen analysis. Sub to Paragon	Laboratory not qualified	Do not use laboratory until an independent assessment is performed to verify the laboratory's qualification in accordance with QP-7.2 requirements.
Hamilton Quality Consulting	Quality Assurance Services	TBD by QPPL	
Huffman	Humic acid. Used for non-regulatory compliance data.	Laboratory not qualified	Do not use laboratory until an independent assessment is performed to verify the laboratory's qualification in accordance with QP-7.2 requirements.
Laguna Industries, Incorporated	Digital imaging of documents and records	2/12/05	
Los Alamos Technical Associates (partners, SAIC, Rust Federal Services, Philip Environmental Services, Inc., Neptune, Company, and Parker Construction)	Environmental Restoration Services	TBD by QPPL	Approved to perform work as described in the base contract and subsequent statements of work.
MKM Engineers, Inc.	Environmental Restoration Services	4/16/07	GSA qualified. QII performed a desk top evaluation of MKM Engineers, Inc. quality program.
New Mexico Tech	Isotopes of Hydrogen and Oxygen analysis Non-Regulatory Compliance. Laboratory used infrequently.	Laboratory not qualified	Do not use laboratory until an independent assessment is performed to verify the laboratory's qualification in accordance with QP-7.2 requirements.

**Risk Reduction and Environmental Stewardship (RRES)—Remediation Services – Environmental Characterization and Remediation (ECR) Group,  
Qualified Suppliers List, Revision 25, August 20, 2004  
(Reference RRES-ECR QP-7.2, Supplier Evaluation for specific requirements controlling this QSL.)**

Supplier's Name	Item or Service Provided	Qualification Expires	Comments
Operational Health Physics Group (ESH-1)	Characterization, Radiation Scoping Surveys and Radiological Monitoring	3/28/05	Approved to perform work on RRES/ECR tasks subject to MOU agreements
Paragon	Organic, Inorganic, High Explosive and Radiological analysis	Laboratory not qualified	Do not use laboratory until an independent assessment is performed to verify the laboratory's qualification in accordance with QP-7.2 requirements.
PMC	Environmental Restoration Services	4/16/07	PMC is a teaming partner with WGII
PrSM Corporation	Health and Safety Services	06/11/07	Evaluation performed in accordance with QP-7.2. PrSM Corporation quality System Program Plan, dated March 4, 2003, Revision 1 reviewed.
reVision, Inc	Information management	5/31/04 Qualification has Expired	Single source contact #13729001-00-A5. Requalification assessment required in accordance with QP-7.2 or a performance evaluation performed and documented IAW QP-7.3.
Roy F. Weston, Inc.	Environmental Restoration Services. MDA Activities	TBD by QPPL	Approved to perform work as described in the base contract and subsequent statements of work.
Science and Engineering Associates, Inc.	Environmental Restoration Services	TBD by QPPL	
Severn Trent – St Louis	Organic and Inorganic and radiological analysis	TBD by QPPL	NELAC certified. Severn Trent-St. Louis Laboratory is conditionally approved. Independent assessment in accordance with QP-7.2 required
Shaw Environmental & Infrastructure, Inc	Environmental Restoration Services	TBD by QPPL	Approved to perform work as described in the base contract and subsequent statements of work.
Spectrum Exploration, Inc. (formerly as subsidiary of Kleinfelder, Inc.	Hollow stem auger, rotary (air & mud), core drilling, well sampling, monitoring well installation, sampling and abandonment.	6/16/07	Evaluation performed in accordance with QP-7.2 and QP-7.3
Stewart Brothers Drilling	Well drilling and core drilling	6/24/05	Evaluation performed in accordance with QP-7.2
Team 21, LLC	Quality Assurance Services and Geochemical Data Steward Support	TBD by QPPL	
University of Miami	Low level tritium analysis	Laboratory not qualified	Do not use laboratory until an independent assessment is performed to verify the laboratory's qualification in accordance with QP-7.2 requirements.

Qualified Suppliers List, Revision 25, August 20, 2004  
(Reference RRES-ECR QP-7.2, Supplier Evaluation for specific requirements controlling this QSL.)**

Supplier's Name	Item or Service Provided	Qualification Expires	Comments
VitChem Environmental Consulting	Whole rock analysis and electron microprobe analysis (in situ and ex situ vitrification)	11/06/06	Desk top evaluation performed of documented submitted by VitChem Environmental Consulting by QII
Washington-Framatome ANP	Omega West Reactor D&D Subcontract No. 41968-000-02 CJ, Task Order No. 01	12/16/05	
Washington Group (formerly Morrison Knudsen (partners, Program Management Company, Rocky Mountain Remediation Services, Science and Engineering Associates)	Environmental Restoration Services	TBD by QPPL	Approved to perform work as described in the base contract and subsequent statements of work.
Washington Group International, Inc.	Subcontractor is responsible for the quality of all services and items provided under Subcontract G66170008 Mod 6 and Task Order 18	TBD by QPPL	Approved to perform work in accordance with their quality management program. Contract superseded by contact modification No. 6.
Washington Group International, Incorporated Boise Area Office	Design engineering (including but not limited to): well drilling, civil, mechanical, electrical, heavy construction, demolition and environmental waste remediation	2/11/06	Approved to perform work in accordance with their quality management program.
Weston Solutions, Inc	Detailed data analysis and 3D visualization	3/11/07	Approved to perform work in accordance with their quality management program.
Zymax Envirotechnology, Inc.	Inorganic, volatile organic, semi-volatile organic, Toxic Chemistry	8/16/06 pending QII assessment	Desk top evaluation performed in accordance with QP-7.2. Reviewed QA manual, dated August 2004, Revision 7.3 and State of California Environmental Laboratory Certification No. 1717, granted to Zymax on 01/21/2004
Approved Suppliers List Approval: RRES-ECR Document Catalog Number: ER2004-0462
